# WERA

What is WERA?

- Web Archive Collection (WAC) access tool

    – Like the Internet Archive Wayback Machine but...
    - Supports full text search of Web Archive Collections.
        – Time dimension displaying search results.
    - Open Sour☺u

Example: Query

Architecture

WERA Detail

- Built against search engine abstraction layer.

  – Previously, implementations for FAST and Lucene.

  – A Nutch implementation was added.

    - Or, le ete utchu f ieee.   et .eb

- Fix Bugs and Implement Feature Requests.

  - See list at archive-access.sourceforge.net/projects/nutch. Includes:

    - ARC Retreiver to go against distributed repository (Currently expects ARCs to be local).

    - Improved link rewriting (Just as f p
